

KOOCHICHING COUNTY CASES ARE FINISHED ON THURSDAY

DIRECTED VERDICTS IN TWO CIVIL CASES

Judgment Against L. H. Slocum for \$6,074.38, Another Against Slocum and Nuveen \$14,472.31

Third Civil Case to Nov. Term, Fourth, a Road Case, Placed at Head of Trial Call November Term

With one criminal case tried, two civil cases heard, one continued to the November term pending settlement and one placed for trial at the head of the calendar at the November term, the Koochiching county cases tried in Crow Wing county on a change of venue came to an end Thursday afternoon.

In the criminal case George A. Elder, Duluth bond broker, was found guilty of attempting to influence the official action of County Treasurer Fogarty of Koochiching county.

In the first civil case following, a verdict was directed against L. H. Slocum, former county auditor of Koochiching county, for \$6,074.38. The case had been brought for the recovery of about \$45,000 commissions on bonds and \$6,000 interest. Action was dismissed as against all defendants named except Slocum.

In the second civil case heard on Thursday brought by Koochiching county against George A. Elder and others for \$20,000 covering commissions, interest and discounts alleged to be illegally collected, Judge W. S. McClenahan directed a verdict of \$14,472.31 against John Nuveen & Co., Chicago bankers, and L. H. Slocum.

The case of Koochiching county against George A. Elder, the Commercial Investment Co. and the Duluth Securities Co. and others was continued to the November term of the district court in Brainerd, pending settlement. It covers a suit for \$60,000 interest and commissions on bonds prior to the \$186,000 bond transaction.

The case of Koochiching county vs. the Northwestern Construction Co. was placed the first case on the trial call at the November term at Brainerd. It involves a suit to set aside a settlement on road No. 24 and for damages for failure to complete the route, the amount sued for being \$30,000.

N. B. Arnold of Duluth, special attorney for Koochiching county, stated that \$12,000 had already been paid in to the county as per terms of settlement by the Farmers National bank of Red Lake Falls, J. A. Duffy and George A. Elder in the first civil case named. The county had secured to date in settlements, he said, \$15,000.

For carrying on this litigation in Crow Wing county, Koochiching county will reimburse Crow Wing county for all court expenses incurred.

George A. Elder is to be sentenced on September 12 by Judge W. S. McClenahan, to which time he adjourned court and at which time Senator C. E. Adams of Duluth, counsel for Elder, will be present with his client. This case no doubt will be appealed to the supreme court. Demurrers on certain lines may also come up for argument on September 12.

Spring Wheat Conditions are Above Average

Washington, Sept. 7.—The conditions of spring wheat on Sept. 1 were 71-2 against 48-6 a year ago, and the ten year average is 74 according to crop expert estimates.

Plans to Have Two Million Men Under Arms

(By United Press)
Washington, Sept. 7.—It is planned to have two million men under arms by June 30, 1918, and another draft of 500,000 is planned for this winter. This became known when the statements of Secretary Baker's expert advisers before the recent hearings of the house appropriation committee were printed as public documents.

By October 10 the department expects to have 1,000,000 men under arms and if sufficient equipment and accommodations are to be obtained for these men another draft will be recommended.

Petrograd Prepares for Possible Attack no Panic Visible

(By United Press)
Petrograd, Sept. 7.—Petrograd is preparing for a possible German attack and red placards are scattered everywhere and are posted on the walls and buildings today calling on the Russians to do their duty. Troops are passing through the streets en route to the front to repel the invaders, but the populace is not worried and no panic is visible.

Will Cause Split Republican Party

(By United Press)
Washington, Sept. 7.—The senate defeated the wealth conscriptionists rejecting the LaFollette amendment of 50 percent tax on incomes of one million. The wealthy conscriptionists plan to stump the states and the republican split will be the most pronounced since 1912 on account of wealth conscription.

WORKS QUILTS PEACE PARTY

Fears People's Council is Annex of Social Party.

New York, Sept. 7.—Former Senator John D. Works of California has withdrawn from the People's Council of America for Democracy and Peace, it was announced here.

His resignation, Mr. Works said, is not due to waning interest in the peace movement, but because he believes the council has not taken a sufficient broad ground and "controlled as it was would be, could be, nothing else than an annex to the Socialist party, and used for its advancement."

Big Game Fisher Urges Use of Sharks as War Time Substitute.

Photo by American Press Association.

Russel J. Coles of Danville, Va., hunter of big game fish and companion of Theodore Roosevelt, is urging the American public to consider the use of sharks and similar fishes for food, leather, oil and fertilizer. At a conference at the American Museum of Natural History in New York, Colonel Roosevelt in introducing Mr. Coles, referred to the interesting fact that if the American people ate some of the sharks, rays and other predatory fish, which constantly consume our so called food fishes, we would have a much larger supply of these conventional food fishes.

Poincare at American Camp.

Paris, Sept. 7.—President Poincare, Paul Painleve, secretary of war, and General Petain, French commander-in-chief, visited the headquarters of the American army. They were received by Major General Pershing, with whom they inspected the training camp.

American Troops in London Reviewed by the King

The upper photograph shows American troops in London marching past King George, who with the Dowager Queen Alexandra, reviewed them. All along the route of march the reception of these soldiers was remarkable. They had expected nothing like it. Men, women and children broke through the police lines to shake hands with the men who had come to help save the British Empire. The men were busy reaching out their hands to answer their well wishers as they filed past.

The lower photo shows a column of soldiers at a halt in Cockspur street. The crowds were so great their march through London was very slow.

WORKING FOR RED CROSS

Society Now Has 624 Salaried Officers and Employees.

Washington, Sept. 7.—Henry P. Davison, chairman of the Red Cross war council, authorizes the following: It is the plan of the war council of the Red Cross to publish monthly a statement concerning its finance and administration and every detail which may be found to be of interest to the public will be made known. The following facts concerning salaries paid by the Red Cross may prove of interest to the public:

One year ago, on a peace basis, with only about 200 chapters and a little over 200,000 members, with annual funds of only a few hundred thousand dollars, the Red Cross employed at its headquarters in Washington seventy-five paid officers and employees, of whom twenty-nine received salaries of from \$2,000 to \$7,500.

At the present time, with the Red Cross on a war footing, with 2,600 chapters to administer, 3,621,011 members and a war fund of \$100,000,000 pledged, Red Cross national headquarters employs 624 paid officers and employees, of whom forty-six are paid salaries of \$2,000 a year or more.

(By H. A. KAATZ)

At the last regular meeting of the Northeast Brainerd Improvement league the members decided to beautify Kindred street. There is a boulevard the entire length of the street from Third avenue to the fill. But at the present time it is anything but beautiful. In some places sand and dirt from one to four feet high was dumped on it by the city at the time the street was paved and has been resting there in peace ever since, while in other places there are holes and ditches two feet deep.

The league decided to level this boulevard and plant trees the entire length of the street. By calling on the residents and members of the league to go out with their shovels and do this work gratis, it can be accomplished in one or two evenings at no expense to the city or the league. C. W. Koering has volunteered to furnish all the trees necessary. He will not only dig, but will also furnish horses, wagons and scraper when needed. Swanson & Thon, the popular grocers of N. E. Brainerd, worked the entire afternoon yesterday with team and plow and broke the sod nearly the entire length and the ground is now ready for the shovel and the hoe.

The league now asks every member and every resident of the third ward, everyone who takes pride in this section of the city, to come out tomorrow afternoon with their shovels and devote a few hours work on this boulevard. The league has made a success of everything it undertook so far and it is anxious to maintain its reputation.

Kindred street is part of the main highway of the city and every improvement on this street should have the hearty co-operation of the entire population.

The league committee on paving meets this evening at the Chamber of Commerce rooms.

HELD OUTSIDE DISCUSSION

France Will Insist on Possessing Alsace-Lorraine.

Fere Champenoise, France, Sept. 7.—"France insists Alsace-Lorraine is not a subject for diplomatic discussion," declared Premier Ribot, speaking at a celebration on the battlefield of the Marne.

"France's only demands are in the character of reparation." Ribot made it clear that unless Germany separates her economic and military ambitions she must deal with a league of democratic nations, banded together to fight economically as well as by force of arms.

"In the event that Germany does not become a pacific democracy," he solemnly declared, "she will be threatened economically by a league for common defense."

FINAL STRAIN IS COMING

British Premier Says Germany Will Find Real Freedom.

Camp Birkenhead, Eng., Sept. 7.—Germany has not yet felt the final strain of the war, Premier Lloyd George said, speaking at the royal national Elstedford here. When she did, he said, she would feel the binding value of real freedom.

If Russia had enjoyed more freedom in peace time, the premier declared, she would have been more united in war, for unity of action was not a suppression of freedom, but its highest expression.

UNANIMOUS FOR WAR BOND BILL

House Passes Measure Without Dissenting Vote.

NO MATERIAL AMENDMENTS

Act Authorizes \$11,538,945,460 in Bonds and Certificates, of Which Four Billion Dollars Is for New Allied Loan—Senate May Take Action as Soon as Pending War Tax Bill Is Disposed Of.

Washington, Sept. 7.—The great war credits bill authorizing \$11,538,945,460 in bonds and certificates passed the house unanimously. Action by the senate as soon as the pending war tax bill is disposed of is planned by administration leaders. Not a material amendment was added to the bill by the house.

Representative Moore of Pennsylvania led a group of Republicans in a little fight for a war expenditure committee.

Every effort of Republicans to limit the control the bill would give Secretary McAdoo over the bonds and certificates resulted in failure.

The last fight, made by Representative Johnson of Washington, to direct the secretary to spend at least \$2,500,000 for newspaper advertising in disposing of the bonds, was defeated overwhelmingly.

May Advertise in Newspapers.

If the secretary desires, under the measure, he may use in newspaper publicity some of the \$17,600,000 appropriated for disposing of all the bonds and certificates.

Representative Cannon of Illinois obtained adoption of a compromise amendment to exempt from taxation forever interest on bonds not in excess of \$5,000.

The bill authorizes the issuance of \$7,538,945,460 worth of convertible 4 per cent bonds, subject to surtaxes and war profits taxes, and to terminate at the discretion of the secretary of the treasury.

Of this total \$4,000,000,000 worth is for a new allied loan; \$3,000,000,000 worth to take over a 3 1/2 per cent issue already authorized and the remainder for converting certain outstanding bonds, including the Danish West Indies, Alaskan railway, Panama canal and naval construction issues.

Cincinnati German Paper Raps Wilson's Reply to Pope.

Cincinnati, Sept. 7.—The Cincinnati Daily Volksblatt declares in an editorial that "the peace conditions laid down in President Wilson's note, which loudly and plainly proclaim the destruction of the German government as the aim of the war, keeps the German people at the guns and firing them with the resolution to fight to the last breath." The editorial further states:

"No matter how long the war lasts the Germans will not allow the destruction of their government. A peace that will assure them of boundaries as they existed hitherto they will approve, as they do not seek to gain land. Specific declaration has been made by the reichstag and the German people will not permit its government to continue the war for the desire to gain territory."

Turning a Phrase.

Mr. Choate's talent for multiplying words which might not signify a great deal, but which not only sounded well, but helped to create with a jury the impression that he sought to convey, is well known. On one occasion in defending an insurance company against which a claim had been brought for the loss of a ship which was declared by the defense to be utterly unworthy Mr. Choate made a great impression by including in his plea these swelling words: "And so, gentlemen, overburdened with her well high priceless cargo and carrying her far more precious freight of human life, the vessel started on her voyage, painted, but perdition—a coffin, but no ship!"

HARMONIOUS LIVING.

Whatever we have we have through the aid of others. All that we have we have for the aid of others. Of our own unaided strength we could gain or make nothing. Holding aught that we have for our own exclusively, it becomes as nothing to us. Cooperation in production and sharing in use and enjoyment are the twin secrets of rightly adjusted harmonious living.—Henry F. Cope.

That which is termed rice paper is made from the pith of a tree grown in Formosa, not from part of the rice plant, as many suppose.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezeone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezeone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting a corn is a suicidal habit.

Are You Lucky?

In August the air is full of pollen and dust that cause trouble for some, yet others are never bothered. No remedy does more to relieve hay fever and asthma than Foley's Honey and Tar Compound for coughs, colds and croup. It clears and soothes the afflicted nose, throat and bronchial tubes. H. P. WOMAN'S REALM

Can All You Can is the Slogan Today

BY MARGARET MASON,
(Written for the United Press)

The ruby cherries in the tree
The peaches glowing rosy
No more their beautiful charms I see
I think but of the quarts there'll be
When I get through my canning.

New York, Sept. 7.—You really can't do better than can these days. Can all you can and everything you can but if you can't of course why then the next best thing is just to mind your knitting.

Canning has not only become a favorite occupation but the favorite recreation. When the tired business man gets home at night to the bosom of his family and asks said bosom what she has been doing all day, not that he cares or even listens to her answer, he is due these days for the surprise of his tired business life.

In the olden times of course he was safe to count on one of three answers, bridge, dancing or movies. Now when little Bright Eyes comes back at him with the startling announcement that she has been canning the strange sound of the word penetrates even a brain all emerged in war and baseball news and he gets all muddled up as to whether the Russians revolutionized this afternoon or the Germans are going to win the World Series. Then when she leads him proudly to the rows of gooseberries and a sextet of glasses of currant and raspberry jelly he's so pleased and happy that he kisses her right by the jelly and ten to one takes her out to the theatre as a reward of merit.

So you see it certainly pays to can. Nowadays there are such fascinating aids to preserving and pickling too. Gummed labels ready to stick on the outside of your finished products come ready printed in blue, black, green or red to suit any fruity color scheme. Some of them more ornate have garlands of fruits, designated by the label, around the border in life-like colorings. Disks of gummed paper, hand colored in the respective fruits, come also to fit on top of the glass or jar over the paraffin. Some ultra artists in pickles and jellies even may go so far as to sign each delectable masterpiece with a tiny gummed label bearing their monogram.

As for the variety of glasses and jars they are irresistible. Glasses for jellies are fluted or plain with a design in the bottom of the glass only which stands out in beautiful relief when the successfully jellied jelly is turned out in all its amber or crimson perfection.

Most adorable little jars of cream, grey or blue and white stone come in tempting shapes for marmalades and jams and the bigger stone crocks and jars for pickles and preserves make excellent neutral backgrounds for a variety of gay colored labels.

Not all the charming labels or quaint shaped receptacles for the outside will help you however if the inside isn't all it should be.

It is a crushing blow to spend a hot afternoon and lots of money for high-cost-of-living sugar and fruit, only to have the final results a sticky gooey mass. If you cook your fruit the least bit too long or pick it the least bit too ripe or start the job on a day that is the least bit too cloudy and dark, then it is all off and you may as well put up your jelly in bottles as the cunning jays have all sterilized and ready for it.

If you're lucky and the atmosphere and everything is just right, however, your success with plain jellies and jams will lead you on into wonderful realms of fascinating concoctions and combinations. Arrays of

shining jars and glasses will then eventually pack your storeroom shelves with such delectable delicacies as picked cherries, pickled and branded peaches, spiced currants, spiced gooseberry, pineapple and strawberry conserve, quince honey, plum and walnut conserve and heaps more that I don't care to mention because my typewriter is beginning to drool at the keys.

Besides it smells as if my water-melon preserves have simmered long enough anyway so pardon me, won't you? And remember that she who cans is canny.

Baron-Anderson

On Wednesday evening of last week, at the Swedish Lutheran church in Cloquet, Miss Victoria O. Anderson, a daughter of Mrs. Clara Anderson of Cloquet, became the bride of Fred L. Baron of Brainerd, Rev. F. Edward Olson officiating. Miss Mammie Carlson played the wedding march.

Miss Adena Anderson, a sister of the bride, was maid of honor, and Walter Nelson best man. Miss Bertha Baron, a sister of the groom, and William Baron, a brother of the groom, both of St. Cloud, were also attendants.

The bride wore a white embroidered net over satin, with veil, and carried a shower bouquet of bride roses. Miss Adena Anderson wore apricot crepe de chine and carried a bouquet of sweet peas. Miss Baron wore a pale blue crepe de chine and also carried sweet peas.

After the ceremony a wedding dinner was served to forty guests at the home of the bride's mother, the color scheme used being pink and white, with a huge wedding bell over the center of the table.

Mr. Baron's home is at Sauk Center, but he was employed at the Northwest Paper mill of Cloquet until about four months ago, when he came to Brainerd to take a similar position. Mrs. Baron was born and reared in Cloquet.

Mr. and Mrs. Baron left on a wedding trip by boat down the Mississippi, and after an extended trip through Iowa, will return to Brainerd and will be at home after Oct. 1.

Messier-Murray

Miss Georgiana Marie Messier, daughter of Mrs. Alvina Messier, was married to George Murray at St. Francis Catholic church, Rev. Father John Crean officiating in the presence of mother and sisters. James Murphy was the best man, and Miss Ellen Messier of Duluth, sister of the bride, was the bridesmaid. Miss Emma Messier of Duluth, a sister, was also present.

After a short wedding trip the couple will be at home in the Model flats after October 1. The bridegroom is a locomotive engineer of the Minnesota & International railway and the bride is a popular nurse, a graduate of the Northern Pacific hospital training school for nurses.

Bedow-Swift

Rev. G. P. Sheridan of the 1st Congregational church officiated at the marriage ceremony of Ira E. Swift and Pearl Bedow.

The service was held in the parsonage of the church and Miss Evelyn R. Erickson, Mr. and Mrs. Dan Whitney witnessed the solemnization.

County Fair

This evening in the social rooms of the Methodist church will occupy a novel entertainment, given under the auspices of the Ladies' Aid society. Many of the interesting and humorous events which take place at an ordinary County Fair, so popular in the fall of the year, will have their representations at the entertainment tonight. The general public is invited to patronize this event and thus show their patriotism.

At the Best Soon

"Twenty Thousand Leagues Under the Sea," as that famous novel has been put on the film will be shown at the Best theatre this month.

It is something like a half century since Jules Verne wrote the thrilling under-sea adventures of the gallant Capt. Nemo and his crew.

But only in recent years has science fulfilled the almost uncanny prophecies of the author concerning submarine navigation, and still more recent are the contrivances by which under-water photography has been made possible.

The film is remarkable as exploiting the latter invention, which was made by the Williamson brothers, and it also records in a vivid way the romance with Captain Nemo's exciting career.

CANTEENS AND REST STATION

Canteens and rest stations for the French and American troops will be established at once in France by the American Red Cross.

The War Council has been trying to find out just what the Red Cross could do most effectively to hearten the French army and to give to French soldiers a token of the fact that America is with her ally with all her power. The French army officers have told the Red Cross that canteens and rest stations would do more for the immediate welfare and contentment of the soldiers than anything else that could be done. Therefore, the problem is going to be met thoroughly and at once.

The polls came out of the trenches, to go home on leave, mud-stained, vermin-covered, reeking with infection. They are marched to the nearest rail-head in that condition, where, perhaps, they find a little station with scanty accommodations for a dozen passengers.

The Red Cross is going to put shower-baths there, and laundries and mending and disinfecting rooms, which will remove the menace of dirt and disease which these men carry to their homes. Then there will be rest-rooms where they can read and write and play games, to make the transition to civilian life easier, and small stores where they can buy tinned delicacies, tobacco, and odds and ends.

Similar canteens will be opened at the railroad junctions where the men must wait enroute. At some of them now these men, still trench-stained, have to lie on station platforms all night. There will be dormitories at such places, and lunch-rooms at all of them where hot meals can be bought at a price just above cost.

Nearly fifty thousand soldiers are passing through eleven of these stations every day. They will have a convincing proof of American friendliness when they find American women—the Women's Bureau is now recruiting fifty of them for such service—ready to help them.

Just behind the firing line the Red Cross will put field canteens. Extending the work already begun by the French Red Cross, we shall see that every corps of the French army, and ultimately our own, has one of these stations, which will supply hot and cold drinks to the men who are fighting. Many of them now have nothing to relieve their thirst except their day's ration which they carry in containers which may be smashed at any minute.

The canteen is placed in or near the second line, and refreshing drinks are carried right into the front trenches. Each station can keep about 125 gallons of hot drinks at the boiling point, and has several thermos containers holding six to twelve gallons apiece. Four thousand portions—coffee, tea, cocoa, bouillon, lemonade, mint—are sometimes served from one canteen in a single day.

Here too American workers will be found. The "convoyer" in charge of the canteen will be a Red Cross man, with French soldiers to help him. Many of the polls will get their first glimpse of the American uniform in this way. Just the cup of coffee, or the cold drink, may make all the difference between sagging morale and spirited fighting.

To carry out these plans the War Council has appropriated about \$700,000, which will serve to establish the canteens and maintain them for about three months. Much of the original equipment will be supplied by the French army.

Hawaiian Singers and Dancers

Hawaiian music has set the world agog with the most bewitching note sounded in the history of instrumental music. This is the whispering, humlike effect produced by the steel method of guitar playing, a Hawaiian invention. The intense popularity of Hawaiian music has resulted in the engagement of the Hawaiian Quintette, native singers, dancers and players. The program of the Hawaiian reflects the love they bear for their land of flowers, mountains and waterfalls, the plaintive minor key melody all speak of love and you will be charmed with such selections as "Aloha Oe" (Farewell and Love to Thee) "Akai Hoi" (I Love But Thee). The Hawaiian are a race of serenaders who cannot even think except to a tune. They will appear at the Park opera house Monday as one of the vaudeville numbers.

Opportunities For Older Men

RAIL ACCIDENTS IN 1916

Figures Show 10,001 Persons Killed and 196,722 Injured.

Washington, Sept. 7.—Ten thousand and one persons were killed in railroad accidents in 1916 and 196,722 were injured, according to a compilation of figures covering the year made public by the Interstate Commerce commission. As usual the greater number were trespassers on railroad property.

Passengers killed number 291; injured, 8,098; employees killed, 2,941; injured, 176,923. Other persons, including trespassers killed and injured, numbered 6,769 and 11,791, respectively.

These figures show an increase over 1915 of 1,371 persons killed and 34,835 injured.

TAKEN UNDER ADVISEMENT

Manufacturers Seek Wartime Agreement With Labor.

Washington, Sept. 7.—Manufacturers' representatives proposed to the Council of National Defense a joint agreement between employers and employees for the war, to prevent strikes and lockouts, compel maintenance of prevailing open or closed union shop conditions and establish a board for compulsory arbitration of labor disputes directly concerning war production.

A request that the council call an early conference of representative national and international officers of American trade unions to agree to the proposals was taken under consideration.

A Minister of Magic.

In the course of an address delivered in London Canon Parfit of Baghdad said that what impressed native rulers in the east was the scrupulous honesty of the English officials. The sultan of Turkey on one occasion was watching a conjurer. The British ambassador, who was present, remarked that it was "wonderful."

"No," said the sultan, "not so wonderful as all that. I once had a minister of marine who swallowed a battleship—at least he had the money for it, and I've never seen the money or the ship!"

Brainerd Musical Club

Brainerd Musical club interests have begun in earnest as was evident by a full executive board meeting held at the Ransford parlors Wednesday afternoon. It is assured the 1917-18 season programs will be of the usual excellence and quality for which the club stands.

Brainerd is indeed fortunate that during these days of the Red Cross activities, with its somber reflections, to have something to offset the gloom and give the relaxation humanity requires. Not only is it necessary for women to do their bit in Red Cross work, but also to support the uplift environments of our community. Through the Brainerd Musical club it is possible to bring to our city high class concert attractions, also to encourage and hear the best of local talent.

Not as a musical organization alone does it stand pre-eminent. Under its various branches of civic, library, public health, social welfare and educational, of which Parent and Teachers association is a part, much splendid work is being done to make Brainerd a better place to live in. It is expected that all members report to the secretary, Mrs. G. W. Mosler, either by phone or postal before September 25th, if they desire to retain membership. The club this year will be limited to two hundred members. Vacancies will be taken by new members on the waiting list.

It behooves members to report early as we are near the two hundred limit now.

MRS. O. H. JOHNSON,
President.

"My Soldier Girl"

The good news reaches Brainerd that theatre-goers are to have an opportunity to see at an early date the gorgeous musical spectacle "My Soldier Girl" at the Park opera house before it is even presented in New York or Chicago. This brand new production with a lavish expenditure of money in costumes and scenery comes in an opportune time for the story offers a cute and surprising novelty in musical comedy, while the three scenes offer the lover of musical plays bewildering effects, novel stage settings, gorgeous scenery, a great cast and a brigade of as clever dancers as ever graced any stage. The piece is chuck full of musical numbers, the story snappy and brisk and the difficult dancing novelties and march numbers are a revelation. There is an excellent cast of clever musical comedy artists and the score of big song hits are sufficiently popular to make any show a success, including "My Soldier Girl," "Dixie Doodle," "When I Dream of You," "Oh You Naughty Baby," "Tell Me With Your Heart" and others.

Girls Knitting Class

The girls knitting class will meet at the Red Cross headquarters tomorrow afternoon (Saturday) at 2:30. Mrs. J. P. Anderson and Mrs. Mons Mahlum will be there to teach. There is much interest taken in these classes and we hope every girl will be in her place tomorrow.

He Felt Like Ninety

Nothing makes a person feel old quicker than disordered kidneys. They cause aches and pains all over the body. A. W. Morgan, Angola, La., writes, "Oh, I suffered with pain in my back. NOW HAS ENEMIES ENOUGH

German "Prophet" Objects to Involving More Neutrals.

Copenhagen, Sept. 7.—Herr von Heydebrand, the Conservative leader, with his earlier prophecy that the submarines would crush England in two months and end the war still fresh in mind, again has ventured a forecast.

This time he predicts that the war will not last through the winter and probably will be ended by the new year.

Von Heydebrand is opposed to any extension of the war to present neutrals, saying Germany now has enemies enough.

GOVERNOR'S POWER
SUPERSEDES COURTS

Springfield, Ill., Sept. 7.—No judge has the power to release on habeas corpus writs or to grant bail to persons arrested by state military authorities in riots or disorders.

This is the ruling handed down here by Judge E. S. Smith of the circuit court and its grants more sweeping power to Governor Lowden in riot cases than attorneys here believed possible.

The decision was given in the case of defendants arrested in the street car riots and will be appealed by them.

The court ruled that only the governor, acting through his appointed officers, has the power to release offenders.

The governor and the state militia, under the decision, have absolute authority in stopping peace meetings in Chicago, irrespective of the mayor and police.

DIVISION OF POLAND
IS MADE COMPLETE

Zurich, Sept. 7.—According to information received from Vienna the central powers have decided to carry out the partitions of Poland. Germany will annex such parts of Russian Poland as she needs "to rectify her strategic frontier," amounting to one-tenth of the territory.

Austria will annex the remaining nine-tenths and Emperor Charles will promulgate a decree uniting Russian Poland with Galicia and proclaiming the whole territory to be the United Kingdom of Poland, with himself as king.

The new Hapsburg Poland will have its own parliament, but its foreign policy, army and finances, will be controlled by Austria.

The immediate effect will be to make the Poles liable to military service in the Austrian army. It will also involve removal of deputies representing Galicia, giving the German parties in the reichstag numerical preponderance.

NEW MENACE TO
RUSSIAN LINES

German Warships Said to Be
In Gulf of Finland.

NAVAL BATTLE IS PROBABLE

Teutons May Attack Fortified Port of Reval in Effort to Bottle Up Russian Fleet or Make Direct Assault on Warships With Object of Leaving Petrograd Unprotected.

London, Sept. 7.—While the Russians are falling back in the Riga region, fighting rear guard actions, new menace has been added to their lines along the Baltic sea.

An official report from Helsingfors to the Exchange Telegraph company of London says that part of the German battle fleet was observed steaming through the Gulf of Finland. Earlier it was reported that part of the German fleet was in the Gulf of Riga. The whereabouts of the Russian fleet is unknown.

Should the report prove true it is apparent the Germans have one of two objectives:

First—An attack on the fortified port of Reval, which guards the government of Estonia. Should this port fall it is probable the Russian fleet would be bottled up inside the Gulf of Finland.

Second—A direct attack on the Russian fleet, which, if successful, would leave Kronstadt, the port of Petrograd, virtually at the mercy of the Germans and would give great aid to the kaiser's troops should they continue their march on the Russian capital.

With the Russian front already broken over a distance of forty-five miles between Riga and Friedrichstadt the province of Livonia is fast being overrun by the Germans.

Italian General is Reticent.

The Italian commander-in-chief, General Cadorna, continues his reticence concerning the operations he has in view against the Austrians, his latest communication merely announcing the continuation of the heavy fighting northeast of Gorizia and the repulse on the Carso plateau south of the Brestovizza valley of strong Austrian counter attacks.

From an Austrian war office statement, however, the situation regarding Monte San Gabriele, which was reported unofficially Wednesday to have been taken by the Italians, has been clarified. This eminence, the last point in the Austrian line dominating Gorizia, did fall into the hands of the Italians, but the Austrians, in violent counter attacks, reoccupied it. Several times since the position has changed hands and at last accounts the Austrians still are in possession, but with the Italians fighting valiantly to take it.

On the Carso plateau, south of the Brestovizza valley, where Bavarian troops appeared for by the Austrians doubtless have reinforced the Austrian line, counter attacks of great strength have been thrown, but unsuccessfully, against the Italian front. The Western front in France and Belgium remains virtually quiet, except for artillery duels on numerous sectors, trench raiding operations, aerial raids and fights in the air between opposing aviators.

VON HUTIER IN COMMAND

Capture of Riga Brings to Front New German General.

Copenhagen, Sept. 7.—The capture by the Germans of Riga has brought out the name of a new German army commander, Von Hutier, whose recent promotion to leadership of an independent army is one of the few examples of young blood forcing its way to the top through the serried ranks of older generals and superannuated officers.

Von Hutier is of French descent, his grandfather having been a French officer.

His chief of staff, General Slubberg, was for a time Field Marshal von Mackensen's chief of staff and later was transferred to Belgium, where his name gained undesirable prominence in connection with the execution of Miss Edith Cavell, British nurse.

GERMAN REPLY TO THE POPE

Said Answer Will Waive Claim to Any Gain From War.

Berlin, Sept. 7.—Germany will tell Pope Benedict the German people want no gain from the war, but only a durable peace guaranteed by international treaties, according to authoritative forecast published by the Vorwarts.

The Socialist organ added that Germany would hold, if her enemies refused this sort of a peace, that the fall of Riga is not to be the last success of German arms.

"The fall of Riga," the Vorwarts declared, "may be expected to destroy the belief, apparently held by the entente powers, that Germany's peace wishes are to be considered as a token of weakness."

Home-Reading Course For Our
Citizen-Soldiers

(Issued by the War Department and all rights to reprint reserved)

This course of thirty daily lessons is offered to the men selected for service in the National Army as a practical help in getting started in the right way. It is informal in tone and does not attempt to give binding rules and directions. These are contained in the various manuals and regulations of the United States Army, to which this Course is merely introductory.

LESSON NO. 19.

THE ARMY SYSTEM OF TRAINING

(PRECEDING LESSONS—1. Your Post of Honor. 2. Making Good as a Soldier. 3. Nine Qualities of a Soldier. 4. Getting Ready for Camp. 5. First Days in Camp. 6. Cleanliness in Camp. 7. Your Health. 8. Marching and Care of Feet. 9. Your Equipment and Arms. 10. Recreation in Camp. 11. Playing the Game. 12. Team Work in the Army. 13. Grouping Men into Teams. 14. The Team Leaders. 15. Fighting arms of the service. 16. Staff Branches of the Service—I. 17. Staff Branches of the Service—II. 18. Army insignia.)

The average American who has a job assigned to him wants to do it well. He doesn't care to dabble over the job and make a mess of it. Nor does he care to make it a halfway success. He is determined to make it a full and complete success in the shortest possible time.

It is assumed that you are starting your army training in this American spirit. Since you are undertaking the job of becoming a citizen soldier you intend to be a good one. You don't want to waste any time in the process.

More than that, if you are ambitious and possess fair ability there is no reason why you should always remain a private soldier. It is right that you should want to advance, just as you want to advance in civil life. The army is anxious to have you advance just as soon as you are ready.

You will not, of course, become a corporal or sergeant or win higher promotion until after you have thoroughly mastered the duties of a private. Nor will all the men who would like to win advancement easily obtain it. There is only one way to get ahead in the army, and that is to follow conscientiously to the end the regular system of training laid out for everybody.

Your training will be practically the same as that through which your officers have advanced in the early stages of military training. Every man in the army must go through it.

Drill Formations

First, you will be instructed in the Infantry drill, as set forth in the Infantry drill regulations. This is the foundation of all your training. It is divided into close-order drill and extended-order drill.

"Close order" is defined in the regulations as "the formation in which the units, in double rank, are arranged in line or in column with normal intervals and distances." Extended order, on the other hand, is "the formation in which the units are separated by intervals greater than in close order." These technical definitions are clear enough to

those who are already familiar with military terms, but probably require some explanation for most of the men who are reading this course. The diagrams below show at a glance what is meant. Figure 1 represents a small body of men in double rank arranged in close order. Figure 2. The space between men standing side by side in rank is called the "interval." In the American army the standing interval is four inches, measured from the elbow of one man to the elbow of the man next to him. This gives room enough for free movement and the proper handling of arms and equipment during drill. The space between a man in the front rank and a man directly behind him in the rear rank is called "distance." The standard distance is 40 inches, measured from the back of the man in front to the breast of the man in the rear. In practice intervals and distances are, of course, not measured exactly. A well-trained soldier, however, soon learns to gauge them with sufficient accuracy and almost unconsciously keeps himself properly placed in relation to the men about him. It is essential that every man should learn to do this in order to maintain a reasonable degree of uniformity.

Fighting Formations

Figure 2 represents a body of men in double rank arranged in column. The same intervals and distances are observed as in the line formation.

Figure 3. An extended-order formation is represented below.

However, this is only one of an infinite number of extended-order formations. Intervals and distances may be irregular. This is the formation used for skirmishing and at other times when it may be desirable to have each man control his own movements without attempting to conform exactly to the movements of the other men.

During drill in close order you will retain "the position of a soldier." In extended-order drill you will usually, though not necessarily, be allowed to take the positions that are most comfortable. You should get in mind at the very beginning these distinctions between close order and extended order. By understanding them you will see more clearly what is required of you and how you can get most benefit out of your training.

Winter and Summer Sun.

The sun is nearer to the earth in winter than it is in summer. It is not distance that determines the amount of heat that we get from the sun, but the length of time the sun is above the horizon and the direction in which his rays strike us. In summer, although much farther from us, the sun is daily above the horizon much longer than when he is nearest, at the winter solstice, and this continued action produces the summer heat. In addition to this is to be reckoned the fact that in summer the force of the sun's rays is more perpendicular to the earth's surface, while in the winter they are oblique. In the case of the perpendicular ray the heat stays, while in that of the oblique ray it "glances off," so to speak.

"Shall I give the jury the documents in the case?" inquired a bailiff. "What have the documents got to do with their decision?" snapped the sarcastic judge. "Just give each of 'em a photo of the fair defendant."—Pittsburgh Post.

"Are you going to earth?" asked the star of the comet. "Yes," replied the comet, "and when I get there I will a tail unfold."—Baltimore American.

UNION LABOR IN
LOYALTY RALLY

Several Public Men Are Mercilessly Arraigned.

GREAT MEETING AT ST. PAUL

Charles E. Russell, John Spargo, Frank P. Walsh and Samuel Gompers Deliver Addresses—Latter Eulogizes President Wilson and Says Any One Failing to Obey His Call Now Is Disloyal.

St. Paul, Sept. 7.—Demanding that they be removed from office by petition of the people, urging his hearers to start these petitions at once, Charles Edward Russell, Socialist, humanitarian, altruist, recently a member of the United States commission to Russia, at the great loyalty rally of organized labor in the Auditorium, denounced United States Senators La Follette, Gronna and Stone in one of the most merciless arraignments of public men ever heard on a St. Paul platform.

"The hiss of the copperhead," he said, "is no new sound in this country. It was first heard more than 100 years ago when this republic first started on its road and it has hung on our footsteps ever since and has hounded us at every crisis in the history of our nation.

"But there was never a time when the presence of this loathsome thing was so hateful as it is today. "The United States senate has the right to say who shall compose its membership and time and again has it expelled members for offenses far less than those committed every day by La Follette, Gronna and Stone."

Outbursts of Wild Applause.

Mr. Russell's address was punctuated with frequent outbursts of wild applause and he carried the meeting along with him in hurricanes of approval.

St. Paul's Auditorium was the rally point of loyal labor's hosts and patriotic St. Paulites.

Other speakers were President Gompers of the American Federation of Labor; Frank P. Walsh of Kansas City, former member of the national industrial commission, and John Spargo, noted Socialist leader.

Mr. Spargo was the first speaker introduced by Chairman R. F. Schroeder. "I am not less a man of peace," he said, "because I recognize the need of war. Men do not address moral platitudes to mad dogs nor do they more address them to the mad dogs of autocracy."

Mr. Walsh detailed the means and powers of congress to raise an army and said:

"The pacifists, consciously or unconsciously, are traitors not to stand together with the rest of us in defense of our country."

Calls Present War Holy.

"I believe if there ever was a holy war conducted in the defense of a nation it is the war in which we are engaged today."

President Gompers of the American Federation of Labor delivered a wonderfully stimulating "win the war" address that brought the people to their feet in wild cheers a half dozen times.

"The wrongs of the world are not new," he said. "The sadness of the story runs through all our history and has been sung and told from time immemorial."

Mr. Gompers insisted it is the duty of every loyal citizen to stand behind President Wilson's declaration of war and make it good.

If we had waited for a referendum, he said, we would all have been blown out of existence by the guns of the kaiser.

"Our commander-in-chief has called us," Mr. Gompers said in conclusion. "And every man who fails to obey that call is, consciously or unconsciously, a traitor to his country."

TOBACCO AND LIQUORS
LUXURIES IN DENMARK

Copenhagen, Sept. 7.—Drinking and smoking will really be luxuries in Denmark under the new taxation program just introduced in parliament. This provides for a special tax on wines equal to the retail price a bottle, and almost doubles the tax on beer, making it, according to the president of the brewers' league, the highest in the world.

The measure increases the tax on cigars, cigarettes and tobacco from 20 to 33 per cent of the retail price. It fixes a special tax of 10 per cent on all sales of jewelry and precious stones.

The tax on incomes of more than 6,000 crowns is increased by 33 to 75 per cent. The tax on property of the value of 15,000 crowns and upward is virtually double.

A 25 per cent increase in railway passenger and freight rates is provided.

MEAT CAUSE OF
KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers—Meat forms uric acid.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out of the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

AUTO THIEVES BUSY MONDAY

I. W. Smith of Ironton came home today from the state fair and he traveled by train as his car, a fine Studebaker seven passenger touring car, had been stolen Monday afternoon from the grandstand parking station at the fair.

Twenty-five other cars were stolen Monday in St. Paul, Minneapolis and the fair grounds, giving all the appearance of a gang of experts at work on the job and who might have had a hand in the robbery of Thursday night in Brainerd.

Northwestern Telephone Exchange Co., protested against removing the telephone pole in front of the Rosko Brothers garage at the corner of Laurel and South Ninth streets. On motion of Aldermen Hall and Lyonals the matter was left in the hands of the street committee with power to act.

Alderman Andrew Anderson now joined the session and assumed the chair, President Koop leaving.

Bids for the purchase of 1,000 feet of fire hose were opened and read. Bidders included J. N. Johnson & Co., Bi-Lateral Fire Hose Co., Eureka Fire Hose Co., W. S. Nott Co. The council went into executive session with Fire Chief McGlin in attendance and considered the bids.

On re-convening for the regular order of business, Aldermen Hall and Lyonals moved that 500 feet of the Red Cross brand be bought from the Eureka Fire Hose Co. at \$1.20 per foot and 500 feet of Gibraltar brand at \$1.10 a foot from J. N. Johnson Co., the mayor and clerk to execute the agreement to purchase on the part of the city, and the motion carried.

On motion carried of Aldermen Hall and Turcotte the Brainerd City band is to be paid its share under the June tax settlement.

On motion of Aldermen Lyonals and Hall warrants for \$75 each are to be issued to each of the five volunteer fire companies.

In the matter of the application of the city of Brainerd for a loan to cover bonds due or to become due on October 1 next, Aldermen Peterson and Lyonals moved and the motion carried, that Alderman Strickler, chairman of the finance committee and the city attorney interview the state investment board with a view of effecting early and favorable action on the city's application for a loan from the board.

Aldermen Hall and Lyonals moved to direct the city attorney to confer with the water and light board with a view of drawing up a suitable ordinance covering the rules to be observed by plumbers when installing water closets, bath rooms or other appurtenance for which extra water rental would be charged, and the council voted favorably on the same.

Mayor R. A. Beise appointed Frieda Canniff on the library board to succeed S. T. Hawkins resigned and Louis Ahlgren as patrolman and the appointments were confirmed.

On motion of Aldermen Hall and Gustafson, carried, B. E. Koehler was appointed janitor and fireman at the city hall at \$59 a month from September 21.

Routine bills and claims were allowed.

EARTHQUAKE DATA

Weather Bureau, U. S. Dept. of Agriculture, Asking for Reports on the Same

The government is at last asking cognizance of the fact that something or other shook up central Minnesota Sept. 3 and cards are being sent all weather observers in Minnesota, at least the local man received one, asking for data on the shock, its extent, damage if any, direction of vibration, sounds, etc., the same to be compiled. At length science will tabulate something which the seismographic instruments failed to record, and Washington, D. C., will be confronted with a lot of testimony as to a shock which the seismograph needle did not design to notice.

Earthquakes are nothing to brag about, but if there is one, the people of central Minnesota do not like to see their word doubted, as was the case when the reporter wired in the full extent of the shock.

The St. Paul Pioneer Press printed it, but Minneapolis was more conservative and had not a word until 48 hours elapsed and their own Minneapolis people came to the front and said the vibrations had been experienced in different parts of the suburbs.

It also brings to consideration the fact that ordinary people with no scientific bent of mind can size up situations very quickly and their own reasoning, unfettered by any precedents, often correctly sums up a situation.

Had some scientist seen the tail of a new comet, he would have had his name tacked on the same and would be embalmed in history ever after. But when central Minnesota grabs off an earthquake and dozens of railway men time the tremors because it sounded just like a wild freight steaming down the track, not a man or the reporter either has his name pinned on the quake.

Old man Hicks of Missouri, he of weather almanac fame, predicted shocks just at the period named as it was some consolation to the Hicks family to see he was right there with the prediction when the tremor came.

AUTOMOBILE STOLEN

Ford Runabout Taken Thursday Night From Front of Turcotte-Hardy Garage

Thieves Thursday night between 9 and 10 o'clock stole the Ford runabout of Turcotte Brothers from the front of the Turcotte-Hardy garage on Norwood street. Tracks followed led past the poor farm to the east of town, through St. Mathias township and it is now believed the thieves will be overhauled at Little Falls.

M. E. CHURCH IS PROSPEROUS

Dr. H. C. Hodgson, District Superintendent, Duluth, Presided at Meeting

PLEASING REPORTS WERE MADE

Church Gave Rev. and Mrs. F. W. Hill a Unanimous Vote of Thanks

The concluding business meeting of the First Methodist Episcopal church was held last night with District Superintendent H. C. Hodgson, D.D., presiding.

The reports from the church organization proper and all auxiliary societies were most encouraging. Some features of the work were difficult because of the building operations but all obstacles have been met and a very prosperous year has been shown. The work of the women in their organization was particularly complimented by the district superintendent.

All current obligations will be paid in full by the end of the fiscal year, October 1st. The collections for the building fund are coming in nicely.

The church gave Rev. and Mrs. F. W. Hill a unanimous vote of thanks for their untiring work with the congregation. Rev. and Mrs. Hill have been particularly successful in leading churches in building campaigns.

Rev. Hill leaves October 3rd for Minneapolis to attend the annual conference of the church which will be held from the 3rd to 7th. Then, according to Methodist church economy, each pastor comes for another year's appointment. The district superintendents, of which there are four and the bishop compose a cabinet. This cabinet considers each pastor separately and he is either reappointed or appointed to a new charge as seems best to the cabinet after consulting the wishes of the pastor and congregation.

The officials of the church are using their best endeavors to use every advantage the new church building as far as it can contribute to the highest possible church efficiency.

SPEEDWELLS VICTORIOUS

Win in One of the Fastest Games Ever Played in International Falls—Fair Games

The fast Speedwell team under the new manager, Loren Gillette, journeyed to International Falls Sunday night for the game on Labor Day. The game was one of the fastest ever witnessed in the International Falls territory.

McNamar for the northerners, started out like a whirlwind, striking out the first two of the Speedwells to appear at the plate. Benda was next up and rode the first ball pitched into the woods on the opposite side of the fence for a home run. From then on the Speedwells hit McNamar at will. The latter pitcher only got for strike-outs during the game.

Kannenberg, of the Speedwells, threw gilt edged ball all the way through the game, striking out 14 of the International Falls batters and allowing but four hits during the game, against 10 off McNamar.

The Speedwell hurler showed his grit in the pinches, working like a big leaguer. With two men on bases, second and third, and Bailey, the heaviest slugger in the International Falls lineup to bat, things looked pretty bad for the locals. The crowd yelled and tore up and down the side lines, trying to rattle the smoke-boy, but standing himself as the slugger stood at the plate, having three balls and no strikes, Kannenberg fanned him, and the game was over.

The holding of Second Baseman Green and Centerfielder Bailey of International Falls and the pecking of Catcher Tucker of the Speedwells, featured the game.

Manager Gillette deserves great credit for the way in which he attended to the affairs of the Speedwells.

The line-up and batting order of both teams are as follows:

Speedwells—Clark, cf; Stallman, 3b; Benda, ss; Tucker, c; Peterson, rf; Hartell, lf; Imgrund, 2b; McGarry, 1b; Kannenberg, p.
International Falls—Brown, 1b; Bailey, cf; R. Carrière, 3b; P. Carrière, ss; Green, 2b; York, c; Zimmerman, rf; B. Carrière, lf; McNamar, p.

Time of game, one hour 25 minutes. Umpire, Zimmerman.

Score by innings:
Speedwells 100 300 010—5
Int. Falls 010 000 001—2

The Speedwells will play at the Pillager and Pequot fairs.
